The College of Science and Engineering and
The College of Education and Human Development
Present

2017 Middle School
Unmanned Aircraft Systems Camp

Campers will learn the key foundation of robotics and computer programming using the SCRATCH program. Students will learn basic engineering principles to control the Unmanned Aircraft System (UAS), and learn fundamental code writing skills to fly autonomously. Campers will learn about different applications of UAS through field trips and presentations.

For more information, visit the campsite at: http://sci.tamucc.edu/ENGR/stemsi/msUAS/

Camp dates: August 14-18, 2017
Camp times: 7:30 AM – 5:30 PM

Send all applications to:
