## Professional Development

Summers since 2006 spent at Los Alamos National Laboratory have been the main source of professional development in terms of research. LANL offers a multitude of seminars and workshops by invited speakers and lab scientists and I attend several of those per week while there.

Spent my Faculty Development Leave in AY 2015-16 at Los Alamos National Laboratory working for 15 months as a Guest Scientist in the machine learning team of the ISR-3 group working with Reid Porter and James Theiler.
